Dear Inland Valley and Rancho Springs Medical Center Nurses:

As Firefighters of city of Murrieta and caring for patients that we transport to Inland Valley and Rancho Springs, we stand with you in your efforts to form a collective voice at the Inland Valley and Rancho Springs Medical Centers. We urge you and the hospital to work towards a fair and transparent election on January 31st and February 1, 2013.

Inland Valley and Rancho Springs Medical Centers are cornerstones of the communities we serve. Residents rely on the exceptional care provided by you, and the other health care employees at the hospitals. This is why your election to form a union is critical. Through a collective voice, Registered Nurses will have the ability to influence the type of care and health policies administered at IVMC and RSMC, resulting in a better and safer experience for the patient.

We members of International Association of Firefighter's Local affiliate 3540 stand behind your push to bring the best care and safe experience to our residence and community. We will continue to support your efforts to improve the health and stability of the hospitals, and we commend your loyalty to your workplaces. We need to continue to advocate for the patients care and place their safety first. Our community relies on your ability to continuation of professional care that we start in the field and deliver to you.

Fraternally
