

# BEVERLY RNs PUT PATIENTS FIRST!

Beverly Hospital Registered Nurses Association

## NEGOTIATIONS UPDATE

We are currently focusing on two major issues at bargaining that are important and key components for our next contract – compensation and medical benefits. Fair compensation is an important issue for our hospital and one that impacts patient care. The only way we can improve retention and recruitment of RNs is by improving and correcting our wages.

Now is the time that we must remain united and support each other.

“I’ve been a nurse at Beverly for the last 22 years and dedicated a lot of hours to patient care. It’s hard to see my co-workers leave and others coming in making more than the ones who stay. Our proposals will help us keep our nurses and attract new ones.”

—Susan Justin, RN, ICU
