

# BREAKING NEWS:

## CORONA RN VICTORY

**O**n October 26, Corona RN Jeannine Wakehouse was sharing information and pizza with fellow Corona RNs in break rooms throughout the hospital.

**V**arious managers tried to force her to leave, until a contingent of managers banded together to try to banish her from the Mother-Baby break room.

**W**akehouse knew her rights and stood her ground!

**O**n October 27, access to break rooms and Wakehouse specifically came up at the bargaining table.

**W**akehouse explained her story in detail, and she and other members of our bargaining team told management Wakehouse has a legal right to be in break rooms.

**UHS-Corona management capitulated and agreed: All RNs have a right to be in break rooms, even if they are off-work.**

**A**s a result, UHS-Corona management will re-train their supervisors so this will not happen again.
