Bargaining Update #4 Sept. 27, 2017

On September 27, our SFRNA bargaining team and management reached a tentative agreement on strong new protections against reductions in force.

Notice for any reduction has been doubled from 30 to 60 days. More importantly, all aspects of implementation on any layoff will have to be negotiated with the union.

We continue to have great turnout of members in support of the negotiating team. Unity is power!
